LOCALISED CRYOTHERAPY

We use localised and targeted cryotherapy to help you accelerate your recovery from an injury, minimize pain or reduce inflammation.

Using the best cryotherapy equipment in the market, our localized treatments provide focused application of -160C cryogenically cooled air to affected parts of the body, penetrating deeper layers of muscle tissue and joints.

This stimulates rapid blood circulation, alleviating pain, inflammation and speeds up your body's natural recovery process.

BENEFITS INCLUDE

- › Alleviate pain & inflammation
- › Speed up recovery from injuries
- › Increase blood circulation
- › Improve range of motion

BODY SCULPTING INFINITY SCULPT

The Infinity Sculpt Ultra is a revolutionary fat-reducing and muscle-sculpting device that uses a combination of Radiofrequency (RF) and High Intensity Focused Electromagnetic (HIFEM) to safely and effectively reduce fat and tone muscles.

The RF energy heats up the dermis layer to target fat cells and stimulate collagen production, while the HIFEM creates powerful muscle contractions to strengthen and tone the entire body.

This device is designed to help you achieve a slimmer, more toned physique in just minutes a day with no invasive procedures, surgery, or intense exercise required.

BENEFITS INCLUDE

- › Non-invasive body sculpting without the need for liposuction or surgery.
- › Quick and painless fat reduction treatment.
- › Stimulates collagen production for skin tightening.
- › Powerful, focused muscle contractions for muscle tone.
- › Increased metabolic rate for improved fat burning.

OXYGEN THERAPY HYPERBARIC CHAMBER

Hyperbaric Oxygen Therapy (HBOT) is a powerful treatment that can help to improve overall health and wellbeing.

HBOT uses concentrated oxygen in a confined space to stimulate the healing process, aid with recovery, reduce fatigue, improve skin clarity and hair strength, improve sleep, and relieve tension and stress. In addition to these benefits, our hyperbaric oxygen chamber also incorporates molecular hydrogen, a potent anti-oxidant that can help to combat free radicals, improve cellular health, reduce chronic inflammation, and preventative therapy for many life-style related chronic diseases.

BENEFITS INCLUDE

- › Improves oxygen uptake and delivery
- › Excellent for improving repair process for musculoskeletal injuries/conditions
- › Reduce fatigue
- › Enhance overall health and wellbeing (oxygen fuels all the cells in the body).
